Classification in 4 zones

- Based on venues received from four square. South east bangalore is divided in 4 zones.

Inference

- 0th Cluster is central area in zone along a linear structure. This cluster is dominated by tradition restaurants of the area, indicating commercial nature of area.
- 1st cluster is forms the periphery of 0th cluster, indicating mix usage of eating places and groceries etc
- 2nd and 3rd cluster are outer area dominated equally by food and department stores cementing its area as residential, not commercial
